FOR AN INTRODUCTION TO THIS REPRINTED SERIES, SEE VOLUME I.

P R E F A C E .

THIS List has been prepared with the view of rendering more easily accessible the numerous Rentals and Surveys in the Public Record Office of lands which at various times have come into the possession of the Crown or have been the subject of administrative or judicial enquiry.

Of the surveys a considerable proportion are in the form of inquisitions, being the presentments or verdicts of juries as to value, tenure and extent. Others are certificates of commissioners based on the evidence of persons living in the neighbourhood, and presumably well acquainted with the lands surveyed. In many cases the depositions of these witnesses are annexed.

In style and method these documents vary from such elaborate and systematic surveys as those of the possessions of the Earls of Northumberland and Westmoreland and other persons made by William Homberston and Edmund Hall, pursuant to a Special Commission dated in 1570 (pp. 251-253 and 382-385), to a rough memorandum or rudely drawn plan of some house or farm.

While some of the rentals or rent-rolls are quite meagre, being merely lists of tenants specifying the rent paid by each, others, generally described as "detailed rentals," are full enough to yield as much information as is furnished by a survey, giving, in addition to the names of the tenants and the rents paid or payable, the extent and position of the holdings and the form of tenure.

The present Volume is compiled in great measure from existing lists, but additional matter has been extracted from the Miscellaneous Books of the King's Remembrancer and of the Treasury of the Receipt and those of the Augmentation and Land Revenue Offices and also from the Calendars (Elizabeth—Charles II.) of Domestic State Papers.

The list of surveys made during the Commonwealth and known as "Parliamentary Surveys," which formed Appendices to the 7th and 8th Reports of the Deputy Keeper of the Records, has been entirely revised and incorporated in the present Volume.

A selection of documents of the nature of surveys has been made from the Special Commissions of the Duchy of Lancaster. Similar returns, not included in the present list, are to be found among the Special Commissions of the Exchequer described in the 38th Report.

An attempt has been made to modernise place-names throughout.

The dates given in square brackets do not appear in the original documents and are merely conjectural.

The list has been carefully revised and seen through the press by Mr. Horace Headlam, of this Department.

H. C. MAXWELL LYTE.
